Medication Use Policy

Allen County Community Corrections maintains a Medication Use Policy for all participants. As a participant at the ACCC Residential Facility, I understand that I have the following responsibilities:

I must disclose to my assigned case manager all medication(s) that I am taking, including over-the-counter medication(s).

1. I am required to take all prescription medication(s) only as prescribed by my physician.
2. Upon receipt of any medication(s), I will provide my medication(s), in their original containers, to the on-duty intake officer who will call for the medication officer. Prescription medications are to be submitted in the original bottle, with a legible label, and with the full amount of the medication present in the bottle (participants are not authorized to take any medication before it is submitted and recorded by ACCC personnel). Sample medication shall not be permitted into the facility unless the participant has a valid prescription with the medication.
3. I am required to inform my case manager of the name and contact information for each physician or healthcare practitioner that I am being treated by. I may be required to execute and update 42 CFR Part 2 consents for release of confidential information to allow my case manager to contact my physicians or healthcare providers as needed to openly discuss my diagnosis and treatment plans.
4. I understand that Allen County Community Corrections monitors my medication use on a regular basis through the use of INSPECT and that any information found is documented in my file.
5. I understand that Medication-Assisted Treatment (MAT) may be found to be an appropriate treatment intervention for me if it is recommended by an appropriate licensed physician. If MAT is recommended, my case manager will confirm that there is a valid medical treatment plan that is developed for me and that is overseen by a licensed medical physician. My valid medical treatment plan must include a diagnosis and a dosage reduction plan as well as an exit treatment plan to facilitate my on-going recovery at the completion of the MAT.
6. If I am involved in Medication-Assisted Treatment (MAT) upon the start of supervision with Allen County Community Corrections, I understand that I will be required to sign consent for release of confidential information allowing for open communication between my licensed physician and Allen County Community Corrections. I understand that I must provide a written copy of my valid medical treatment plan, my exit treatment plan and any/all other documentation requested by my case manager.
7. I cannot discontinue the use of any Medication-Assisted Treatment (MAT) without informing my case manager in advance and without consulting with and receiving a recommendation from my treatment provider/licensed physician in advance. I understand that if I discontinue any MAT without first taking these steps that it could result in a violation and sanctions being imposed upon me up to and including termination from Allen County Community Corrections.
8. If I fail to disclose to my case manager any/all currently prescribed medication(s), any changes to my prescription medication regimen, or my use of any over-the-counter medication(s) it could result in a violation and sanctions being imposed up to and including termination from Allen County Community Corrections.
9. It is the policy of ACCC Residential Facility not to administer medications to participants. ACCC staff store, document use, and observe as participants self-administer prescribed medications. All prescription medication will be delivered by the on-duty medication officers unless otherwise approved.
10. Medications shall be delivered by the Medication Officer at approximately:

Male Participants:

1:00 a.m.

7:00 a.m.

3:00 p.m.

8:45 p.m.

Female Participants:

12:45 a.m.

6:45 a.m.

2:45 p.m.

8:30 p.m.

11. Participants may take necessary medication with them when they leave the facility only if this is required by a medical provider. However, the participant must provide an additional labeled prescription bottle in order to take medication with them out of the facility. This second bottle must be returned to the Residential Shift Supervisor when the participant returns to the facility. Participants who are job searching during medication times shall not be permitted to take to-go medications.
12. Non-prescription medications from an approved over the counter medication list, may also be kept in the Medication Room and available at the above times.
13. Participants have access to medical, dental, and mental healthcare services as needed. If emergency healthcare is needed while inside the facility, the participant should contact the Residential Services Officer who shall call an ambulance if deemed necessary. If emergency healthcare is needed outside the facility, the participant should proceed to the closest emergency medical facility and call ACCC as soon as possible. Otherwise, participants are responsible to schedule their own appointments with a local doctor, dentist, or mental health professional at their earliest convenience.
14. Participant medical files shall be kept confidential.
15. Non-prescribed, approved, routine over the counter medications are available as a single dose for purchase in the vending machines located in each living pod.
16. Use of participants in medical, pharmaceutical, or cosmetic experiments is prohibited. The Executive Director may make an exception for an individual based on the need for a specified medical procedure that is not generally available.
